We understand that during a long rice of ten or twelve miles into the city of Nankin and back, along what may at uresent be called one of the streets of a large samp, Mr. Meadows did not hear one of these abustwe and derogatory epithets applied to himself or companions, which have always been so liberally bestowed on passing fereigners by the heathen Chimese. There was also the fullest evidence that the obscene expressions with which the latter garnish all their conversations are problisted and almost banished from the language of the Christians.

"That there are ambitious self deceivers, shrewd imposters, and calculating by poorties among them in plenty, we doubt not we also doubt not that sumbers join, and will continue in their ranks, influenced exclusively by motives as werklip and [gooble as those which guide the conduct of so many professing christians of the West. But among the leaders and originators of the movement, there are unmistakeable signs of a good leaven, which, we trust and carractly wish, may ultimately spread throughout the whole mass. One convincing proof of the sincertly of the ruing minds is, that while fighing to free their country from a foreign yoke, and auxious to obtain achiernts, they, nevertheless, throw great difficulties in the way of a rapid increase of numbers, by insisting on "he general adoption of a new and revealed religion learnt from barbarians.

"We have not time or space to say more at present. We have thought it advisable to dwell, in the first instance, mainly on the most striking and momentous feature of this movement, its religious and puritanical element—a feature now placed beyond all doubt, but which the previous conceptions of many foreigners will nause them to regard with the greatest astenishment, if not incredulity in any body of Chinese. We hope here after to it e anabled to give seme account of the origin, military organization, actual position, and probable future movement tof the

LOED PALMERSTON TO BE RECERTARY FOR FOREIGN AFFAIRS—REPORTED ACCEPTANCE BY THE CLAR OF THE PROPOSAL OFFERENCE BY FRANCE AND ENGLAND—THE SOVEREIGN OF THE STARS.

It was generally reported that Lord Palmerston would exceed to the Foreign Secretaryahip, the Earl of Claredon exchanging to the Home Department.

Respecting the Eastern difficulties, there is no doubt that the reception given by the cabinet of St. Petersburg to the first propestion from the powers was so favorable as to warrant the expectation, that the question in dispute will be settled without further delay.

The Russian Chancellor is said to have declared to the French Ambassador that the Crar will welcome the arrange ment held out for his acceptance. The only motive supposed to cause further delay was the necessity of obtaining the assent of Austria, which consent is believed now to be on the way to St. Petersburg. If the French proposal is the one ultimately adopted, it is a note framed by the French government as a medium between the demacos of Russis and Turtey.

It is difficult to say if the following important statement be premature; but it has an effect on public feeling, it came on the 20th, telegraphed from Berlin:—That the Crar had actually accepted the proposal affered by France and London, where it considerably improved the funds. The public fully believe that the main danger is over. EFFECT OF THE SMYRNA AFFAIR-DOMICILIARY VISITS-MORE ARRESTS OF HUNGARIANS-MILI TARY MOVEMENTS-RUMOBED CABINET CHANGES. The Times correspondent, writing from Smyrns, July 17, states that the unheard of conduct of the commander of the United States corvette St. Louis almost exclusively occupied public attention, and John P. Brown's share in it was severely reprobated. The Ocst Correspondence, semi-official, says the bru'al behavior of the American commander excited indescribable indignation in the minds of all the consuls and the well disposed population of Smyrna. The Organ praises the prudent, determined, and couragious behavior of the Austrian Consul and commanders, and says the Austrian brig Artemesia

mired, and courselous behavior of the Austrian Cossul is continually hovering around the American sloop. Further, the official report adds, the Austrian war steamer Castozza was expected at Smyrms on the 6th. If Baron Bruck understands the real interest of Austria he would give positive instructions to the Cast zza to avoid all and every solihion with the Americans, it being pretty evident that J. P. Brown and Capt. Ingrabam represent the feeling of the nation to which they being.

Before his Honor, Recorder Tillou.

AUGUST 4.—The Court resumed its sitting again to day.

A large number of persons were tried and sentenced. The
Court, during the morning, was held by the Recorder, and
in the afternoon by Judge Beebe, who continued to try
cases until late last evening.

THE FIRST AVENUE RIOTERS—THE REGULATORS AND

The counsel for the prisoners in this case moved for a postponement of the trial, on account of their recent arrest, and their only being indicted a few days ago. He was not in good health at present, and consequently would not like to proceed with the case. Although the prison was very warm, and the prisoners' accommodations not very convenient, still he such his clients would rather have the case postponed ustill the next term, so that by that time the excitement about the riot would have died away. He would rather run the risk of getting bail, and letting them remain in prison, than go on with the case when they were not ready to do so. Mr. Hall, the Assistant District Attorner, on moving for an immediate trial, said that riot was a summary of fence, and always had been treated by the courts with promptress. The counsel for the prisoners stated that he was unwell and would not like to proceed with the case. If he was unwell it was no reason why he should keep twenty two neen, who supported their families by their daily labor, in prison during such warm weather as this. It was not for the prisoners to consider whether they would like to be tried, but for the Court, who was their legal guardian. The speaker therefore urged his Honor not to postpone the case until the next term. The counsel for the prosecution were ready to try the case to-day, to morrow, or next week, but they would not by any means like to have the case postponed for a month. The counsel for the defendants then rose and said, that it was not on account of his ill health that he wished to have the case postponed for a month. The counsel for the defendant then rose and said, that it was not on account of his ill health that he wished to have the case postponed for a month.

as possible. In the present case, under the circumstances, he would set down the case for Monday next, and on Saturday the counsel could apply for ball, if they thought proper.

The prisoners were then conducted back to prison, and immediately the court room was cleared of more than one-half of its occupants, who were present to witness the result of the trial of these individuals, who were arrested on Saturday night for being concerned in another rict in First avenue, in which the police were severely handled, but succeeded, however, in dispersing the rioters, and making twenty-two of them prisoners.

\*\*Crand Larcety\*\*—A German girl, named Rosalind Oppenhiem, was placed at the bar charged with stealing clothing and jeweiry to the amount of \$1,000, from Mrs. Susan E. It appeared from the testumony of the complainant that she was sick and that the defendant was attending her as a servant; she save her the keys of all the trunks and closets containing her wearing appared and jeweiry; when she got, well she asked Rosalind for the keys of the trunks and closed the prisoner confused; the complainant then searched her trunk, and found that a diamond rine worth \$350. and asseral other articles of jeweiry, had been abstracted; she was very much grieved at the lose of the articles, as they were keepaakes from her hurband, who was dead, and her son, who was absent in some foreign counter; she suspected the girl, and accordingly had her arrested; the prisoner was the only person who had access to the room.

The counsel for the defence occupied the greater part of the day in examining witnesses to prove the good character of the prisoner, who it appeared was of very respectable parents, who reside in Germany. He pleaded very strongly for her, on account of her being alone in this country without friends or relation.

The jury in this case, which occupied nearly three hours, after nearly an hour's consideration, rendered a verdict of not gaility.
